

# TRUSTED Water Disinfection Using Solar Power (The SODIS Method)

**1**

Use clear, washed PET bottles. PET bottles will have this symbol:

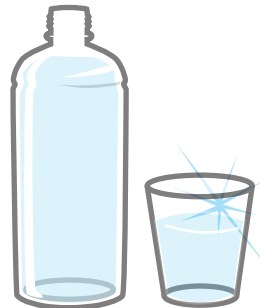

**2**

Fill bottles 2/3 full with **TRUSTED™** filtered water, close the cap and shake well. Then fill the rest of the way and replace the cap.

**3**

Expose bottles to direct sunlight for at least 6 hours, or for two days under very cloudy conditions.

**4**

The water is now safe to drink directly from the bottles or from clean cups.

**5**

Store water in SODIS bottles.
